

BIO-CRATES

Technical Datasheet

BIO-CREATES crates are manufactured from high-strength polypropylene and designed for industrial, logistics, and food-related applications. Their ventilated structure facilitates cleaning, optimizes storage, and supports intensive use in professional environments.

APPLICATIONS

- Food industry
- Agriculture and harvesting
- Logistics and storage
- Distribution and retail
- Food processing

ADVANTAGES

- High mechanical resistance
- Hygienic and ventilated design
- Easy cleaning and disinfection
- Efficient stacking
- Long service life (>20 years)
- Recyclable material
- Customizable color and logo

MANTENIMIENTO

- Cleaning with water or detergents compatible with polypropylene
- Resistance to high washing temperatures
- Design that prevents moisture accumulation
- Fast drying thanks to structural ventilation

MATERIAL Y SOSTENIBILIDAD

- Made from recyclable polypropylene
- Food-grade suitable
- Designed for industrial reuse
- Long service life, reducing logistical waste

TECHNICAL SPECIFICATIONS

Material:	Polypropylene
Color:	Customized
Weight:	1 kg
External dimensions:	600 x 400 x 150 mm
Volume:	15 liters
Depth:	28 mm
Distance between stacked boxes:	28 mm
Boxes per pallet:	300
Pallet dimensions:	1.200 x 800 x 1800 mm
Standard truck:	33 European pallets, 9900 boxes
